CHPA Testimonials

As a Systems Engineer working to specialize in the security area of the IT industry, I chose the CHPA as the first step along the security path in my career. This test proved to be a great entry level certification for HIPAA compliance. The exam and course was well documented and allowed for a beginner to truly grasp the concept and ideas behind HIPAA.

Kevin Kruger
Technical Projects Systems Engineer

HIPAA Training and Certification is essential for any business associate that is setting up a HIPAA compliance program. In addition to thorough courseware, HIPAAtraining.net provide template for policies; contracts and procedures to build your program. Our company had an experience HIPAA officer who had set up compliance programs for HIPAA in the past. Even with this experience, we often leveraged the materials supplied with the course for our program.

The instructor was very thorough and prepared. He brought a lot of added content to the course. Instructor is an infosec professional and his stories and application were very helpful. The instructor kept the training on schedule and was sure to blend practical experience with the HIPAA standards.

Matthew Reed - Director, Information Security Compliance and Awareness
Consolidated Graphics

This class has given me the expertise to bring our facility into better HIPAA compliance and continue on with a strong program. I would not be able to do what I am doing without my training.

Michael Popp.
HIPAA Compliance Officer
Peter Christensen Health Center

I found this course extremely beneficial. It not only covers the core issues but also designed to develop deep understanding of the subject matter in HIPAA I highly recommend this to all the people who intend to take the certification. It is great for even people who believe in self study. In spite of vast subject matter, the guidelines given have been greatly helpful

Thank you so much for all the support and guidelines.

Barkha

The instructor used real examples with student questions to illustrate HIPAA breaches versus just bad business practices or versus violations of some other privacy statute. He was obviously knowledgeable and experienced in the subject. I trust his answers, believe his answers to be backed by the statute, and have relayed that trust to the operational chain of command at my company. I have resolved three common and recurring issues in our company with this training session.

Allen Gann
MASH Inc

I think our instructor knew his stuff and was actually more qualified than I expected someone to be.

Eric Lukens
University of Northern Iowa

The instructor was very accommodating in our training session. I had several situation-specific questions that required some research on his part. He did this research and was able to answer my questions. He allowed me to interrupt the training module with thoughts and questions and did not get irritated. He constantly sought feedback to ensure that he was moving at a pace that I was comfortable with and that I understood what we were reviewing.

Andenia Mehler, Solvay Pharmaceuticals

Strengths of the course: Instructor was extremely knowledgeable across all aspects of HIPAA. He was also able to apply what he knew to our specific needs.

This course was incredibly detailed and taught us everything we needed to know about HIPAA and how it applied to our specific industry. The instructor was knowledgeable and very patient with us as we asked questions and diverted into our own discussions about how the follow on implementation would apply to us specifically. We now have a plan to become HIPAA compliant.

John McLoughlin - Vice President Benefit Operations
Alliant Insurance

Having an instructor who deals with HIPAA compliance on a daily basis enhanced the overall quality of the course tremendously. The instructor supplemented the course materials with her own experiences and insights. Great course.

Randall Kizer
Alliant Insurance Services

Student's view on the strength of the HIPAA course:

Student's view on the strength of the HIPAA course:

The instructor was excellent, she was not only prepared, but also a wealth of knowledge on the subject of the class, and had many real life scenarios that applied to the content. The material was excellent and the instructor was above par.

Student's view on the strength of the HIPAA course:

Presenting a lot of material about a complex subject in such a manner that even in the limited amount of time I was able to understand it.

Student's view on the strength of the HIPAA course:

I felt the course covered the motivation and contents of the HIPAA legislation well.

Charlotte Brown's view on the strength of the HIPAA course:

Instructor knowledge

Tim Elrod's view on the strength of the HIPAA course:
Knowledge of the instructor.

Steven Payne's view on the strength of the HIPAA course:
Very knowledgeable instructor.

Darwin Sturdivant's view on the strength of the HIPAA course:
Examples, details.

Student's testimonial for HIPAA training:

The instructor delivered more than HIPAA training. His insight into the dynamics of organization, IT departments, and IS departments, as well as business processes was brought to bear on our problems. It was like we had personalized consulting thrown in for free.

Stefan Morris

Student's testimonial for HIPAA training:

This is a great class for any organization tasked with the implementation of mandated federal regulations. The instructor has an uncanny ability to keep trainees engaged while educating on extremely dry and many times confusing material. He also has a unique ability to link international standards, and federal regulations in a method that allows organizations tasked with the implementation of these regulations the appropriate fodder to allow management to make and support informed business decisions based on adequate risk-based documentation.

Rob Marti
