CHPSE Testimonials

I have just completed the HIPAA Privacy and Security online anytime training and want to share my experience. The flexibility of this training was invaluable as I had a family emergency just as I started, but was able to continue the course while I was out of town. The accompanying lecture with the PowerPoint slides differentiates this online course from others. The HIPAA expert expounds on the slides in a conversational tone and shares his extensive knowledge and experience without falling into legalese. The accompanying course book and files make this an extremely thorough learning experience, while also serving as valuable reference material for the near future. The course also allows for asking questions and these were answered fully and promptly. HIPAA permeates the health care industry; any individual, regardless of his/her role, will undoubtedly benefit from taking one of HIPAA training.net's courses and the subsequent knowledge will be a necessary asset to any health care organization.

I highly recommend this training to every HIPAA professional. The Supremus Group, through outstanding instruction, helped me to prepare for the certification exams as well as understand the policies, procedures, risk analysis, and audit processes required of my organization. Due to this training, by the Supremus Group, I am confident that my organization will be able to be actively compliant with all of the HIPAA and ARRA rules and regulations. I have a much better understanding of how to train the staff for continual compliance in adhering to the Privacy and Security Rules. Thank you Supremus Group for meeting my needs, answering all of my questions, and preparing me for the certification exams. I couldn't have done without you!" – Julie Ouzts HIPAA Compliance Officer.

The HIPAA Privacy and Security training instructor used humor, concrete workplace examples to simplify the intricacies of the HIPAA laws. The mixture of participants made the training atmosphere relaxing instead of intimidating. Participants were able to expose their knowledge base, or lack thereof without being judged. I highly recommend this training and the trainer to anyone who wants to understand and implement HIPAA laws.

The instructor lead training that I received from hipaatraining.net is the most in depth training that I have ever received. The training combined an experienced instructor with great training materials to clarify what can be complex information. I will use hipaatraining.net to certified all of my privacy and security team.

My instructor for the classroom sessions was very knowledgeable about all aspects of HIPAA Privacy and Security and was able to provide extremely detailed coverage of the course materials. He took the time to provide relevant examples and to discuss the course content as it related specifically to our business. In addition, the course manual, resource CD and test preparation software provided a comprehensive approach to exam preparation and will continue to be useful resources back on the job.

Strengths of the course: The instructor was the main strength of the course, he really knew the material very well and was extremely confident in his delivery. The material covered a wide range of topics but each was very comprehensive.

Testimonial: The course was very well organized and we always stayed focused on the material. The instructor is an expert in this field and presented the material very effectively. The course reinforced the subject matter that I had experience and knowledge in but also allowed for a great deal of new information that I will be able to use at any company in the healthcare field and has prepared me to help lead our company to become HIPAA Privacy and Security compliant.

I feel the instructor was very knowledgeable and had vast experiences to relate to our questions. He didn't just provide the answer; he challenged us to think about how to look at our specific situation and how to implement the standards. He provided the group a great understanding of the privacy and security issues related to HIPAA.

Shelley O'Connell, M.A.E.

Student Health Clinic Director

Strengths of the course: Provided background on the topic as well as outlined how HIPAA/privacy/security affects our company. Also the instructor made the topic, with its unfamiliar terminology, easy to follow and understand. I found this course to be extremely valuable, as I was previously unfamiliar with the details regarding HIPAA regulations and now feel confident in discussing HIPAA and how the rules apply to our organization (as well as others). The onsite training instructor provided was geared toward our operations, which was more helpful than providing hypothetical examples. He is also very knowledgeable on the topic and provided valuable resources that we are able to reference now that the class has concluded. I would recommend this course to other organizations.

Carla Spencer - Training Coordinator
Alliant Insurance

Strengths of the course: Knowledge of the instructor of multiple laws and regulations we need to consider in addressing privacy and security of information.

The instructor is well versed in privacy and security rules and regulations that need to be addressed by companies dealing

with health information as well as other personal information that must remain private and secure. He is up to date on the latest laws that impact our effort in becoming compliant with matters of privacy and security.

Fulcrum Analytics Inc.**

We have several clients who are either HIPAA covered or are a hybrid of HIPAA and non-HIPAA covered entities. I thought the presentation stimulated very useful internal discussion. The training will help our company articulate a set of ethics and guidelines as we work with our clients and their medical data. In general, I thought the information was very useful in the area of privacy and security.

Student's testimonial for HIPAA training:

Instructor was very knowledgeable, amazing training. I learned a great deal about HIPAA. I now have a much broader understanding.

Student's testimonial for HIPAA training:

The instructor is A+. Great speech presentation skills. Great passion and patience. Obviously loves what he does and teaches well. All healthcare organization should be required to take training from the instructor. I learned how to use HIPAA to more effectively do my job. Thank you! Student's view on the strength of the HIPAA course: The entire course was well documented, outlined and well delivered.

Bob Stubbs

Afton Gille's view on the strength of the HIPAA course:

Great instructor and Q/A session.

Student's testimonial for HIPAA training:

It is evident that the instructor really has a passion for educating, specifically educating healthcare professionals about HIPAA. The instructor was very prepared and did an excellent job of preparing our team for the course ahead of time and giving us an outline of expectations on the first day. The instructor's insight and examples will prove beneficial for our organization. It is my opinion that my HIPAA knowledge has been significantly improved.

Jennifer Goddard
