CHSE Testimonials

The course content was comprehensive and extremely informative. It was more informative than what I expected for an "on-line course", and having an actual lecturer speak the slides in the presentation, gave me an opportunity to retain more of the information.

I just wish the test wasn't so hard!! :)

Kerry Hannify
Data-Mail, Inc

I wanted to take a few minutes and thank you for the quality product from the Supremus Group. I had recently checked with some friends in the healthcare industry about HIPAA certifications and they pointed me to your website <http://www.hipaatraining.net>.

After spending some time on the website, I decided to purchase the Online Anytime Training and associated manual for the Certified HIPAA Security Expert program (CHSE). Well, I have to admit that I was a bit anxious going forward with this computer based training, but as soon as I received it I was pleasantly surprised!

The online training is broken into real-world modules and chapters that parallel exactly what is being taught in the book. By using the combination of the two, I was able to pass my CHSE test on the very first attempt.

I strongly recommend this course material to anyone who wants to prepare for the certification and wants to enhance their knowledge in the area of HIPAA security. I feel that I am now able to better contribute to corporate security policies, access control systems, and many documented procedures in a more-comprehensive manner after my training.

Thank You Bob and Supremus!!

Thomas Coffy - CISA, CISSP, CHSE
Senior Engineer, IT Security Office
Abacus Technology Corporation
Kennedy Space Center Florida

This was a great and informative course that provided extensive background knowledge on HIPAA requirements. The book and on-line instruction were invaluable in assisting our company to understand and develop policies that were applicable to the unique structure of our BPO projects. I highly recommend anyone seeking a more comprehensive understanding of HIPAA Security Standards to take this course.

Detra Jackson
Telamon Corporation

Strengths of the course: Instructor was able to provide examples from his own personal experience having worked in such positions requiring HIPAA Security and offer helpful tips. Also, the training materials will be good reference materials as well.

Testimonial: I was searching for a HIPAA training course that would give me the basics for HIPAA Administration and Security to enable to implement such a program at my organization. I found that with the training offered by Supremus Group with its practical and knowledgeable instructor and useful course materials I can use as a reference. I now will be able to create a HIPAA policy plus corresponding procedures.

Rebecca Chang
SPIROCOR Ltd

The strength of the course was the one-on-one education and training. The materials were excellent and will be used as a continued resource. The instructor was extremely prepared. He was able to answer questions as they came up. When asked questions as it

relates to my work environment he was able to answer those with insight into how we could improve our processes. He also provided many additional resources that will be utilized in continuing to strengthen our policies and procedures.

Student's testimonial for HIPAA training:

I found the training to be engaging and informational. If you are charged with the responsibility of maintaining the policies and the compliance of your organization I would definitely recommend this course as a first step to ensure you had a good understanding of the legislation and requirements. Student's view on the strength of the HIPAA course: Going beyond the verbiage in the book.

Michael Williams

Michael Wood's view on the strength of the HIPAA course:

The instructor and his broad knowledge. The presentation of the material. Mapping examples to materials.

Student's testimonial for HIPAA training:

Instructor was very well prepared. He not only knows the material, but knows how to deliver it and in a manner that is respectful and also assisted in providing suggestions and made recommendations on how we can educate, train and communicate with senior leaders in a manner that will assist us in remediation concerns we have in our own organization. One of the best training courses I've experienced.
